Letter Nr C2 3410/32-33 dated 3-4-34 from the Deputy Commissioner Bangalore Dt forwarding for sanction an estimate amounting to Rs 27,06 for the water Supply Scheme to Closepet and requesting that the establishment, tools and plant charges in respect of the estimate be waived and that a grant of one half of the be contributed by Govt

1 The estimate exclusive of the establishment and tools and plant charges amounts to Rs 23 The Municipal Council request that the establish and tools and plant charges amounting to R 3 be waived and that Govt be pleased to contribu one half of the remaining estimate viz Rs 11,5 In similar cases the Financial Secretary has opined that waiving the establishment etc charg is not possible As regards a grant from Govt it is not perhaps possible to contribute such a large sum as Rs 11 550 The Director of Healt may be consulted on this point

2 The items which go to make up the Municip quota of half the cost (if Govt agree to on other half) include the following -

	Rs
(1) Amount realisable by the sale of pipes	2,487
(2) Contribution by Sri Rama Reddi of Cooperative Society	5 000
(3) Cost of old iron pipes laying underground	630

3 As regards (1) the Deputy Commissioner states when the notes were put up for sanction, nobody

2) It is reported that the sum of Rs 5000 promised by the co-operative society, it has already got about Rs 1000, accumulated profits, that the balance of Rs 4000 is proposed to be donated out of the reserve funds of the society. It is recommended that the proposal of the society to contribute a sum of Rs 5000 may be approved as a special case. A revenue of Rs 2700 per annum is expected from the levy of water rate and tax on tricycles etc. Action to levy the fresh items of taxation is proposed to be taken immediately the water supply scheme is sanctioned. It is stated that the revenue so raised will be sufficient to meet the annual maintenance charges.

OFFICE OF THE DEPUTY COMMISSIONER
BANGALORE DISTRICT

Dated Bangalore the 3rd March 1934

FROM

K V Anantaraman Esq B A,
Deputy Commissioner,
Bangalore District

To

S. Abdul Majid Esq B A
Chief Secretary/General Secretary
to the Government of Mysore
Bangalore

Sir,

Subject

I have the honour to state that the Executive Sanitary Engineer, Bureau of Sanitary Engineering has prepared a project for water supply to the Closepet Town at an estimated cost of Rs. 27,060/- inclusive of the usual charges of 18% towards the establishment and tools and plant charges The scheme provides for sinking a well 15 feet diametre and 30 feet deep on the bank of the Arkavathi River and for pumping water from this well by means of an electric pumping unit of suitable Horse Power into a reservoir of about 30000 gallons capacity to be constructed in brick masonry on the land to the west of Wesleyan Boys School Provision has been made for about ten taps at present but the feeding pipe will be sufficiently big to take the required extensions later on The Municipal Council who were consulted in the matter have approved of the estimate and have resolved to request Government to meet half the cost of the estimate excluding the tools and plants charges amounting to Rs 3960/-

2 As regards the Municipal quota of contribution viz , Rs 11550/-, it is proposed to be met as follows:-

(1) Cash on hand ear-marked for water supply	Rs 2138
(2) Amount realisable by the sale of sites in the old and in the newly formed extensions	Rs 2782
(3) Amount to be realised from the sale of State Loan Bonds owned by the Municipality	Rs 1000
(4) Contribution by Sri Rama Nidhi Co-operative Society which has agreed to pay a sum of	Rs 5000
(5) Cost of old iron pipes lying underground and to be utilised	Rs 630
Total	Rs 11550

As regards recurring cost on account of the annual maintenance amounting to Rs 3000/- the Municipal Council propose to meet it by levy of

(1) water rate on Mohatarfa
(2) tax on cycles
(3) tax on dangerous and offensive trades and
(4) licensing fees for hotels

3 The scheme for the supply of drinking water to the Closepet Town has been a long felt want and it is necessary that early steps should be taken to provide the Town with a good water supply The finances of the Municipality are not however satisfactory and some assistance is necessary from Government I recommend therefore that the tools plant and establishment charges may be waived as a special case and that one half of the remaining cost of the scheme may be met by Government

4 As stated above, one of the sources for meeting the Municipality s share of the cost is the realisation from the sale of the vacant sites With a view to secure the highest amount under this head I had suggested to the President of the Municipal Council that the sites may be sold by public auction It is now reported that the attempts made to sell them proved infructuous as none came forward to bid at the sale Presumably taking advantage of the present situation the people seem to be trying to combine and knock off the lands cheap I have in these circumstances directed that the disposal of the lands might be postponed In view however of the urgency of the water supply scheme and the inability of the Municipality to pay the amount that was expected to be realised by the sale of sites I request that this amount may be kindly advanced by Government to the Municipality subject to adjustment of the same in due course either by the sale of sites under favourable conditions or in any other manner Sanction may also be accorded to the balance of the Municipal Quota being met in the manner proposed by the Council I request that the above proposals may be kindly sanctioned early so that the project may be taken on hand and completed expeditiously

The estimate and the other connected papers are enclosed for reference

I have the honour to be,
Sir
Your most obedient servant

(S)
DEPUTY COMMISSIONER
BANGALORE DISTRICT
( )

REPORT

The accompanying Estimate for Rs 27,060/- provide for the Water Supply Scheme to Closepet Town The present population is about 5500 and it is proposed to supply abou 60000 gallons per day at 10 gallons per head per day

A well 15' diameter and 30 ft deep will be constructed on the bank of the Arkavati River as shown in the plan and water is proposed to be pumped from this well by means of an electric pumping unit of suitable H P , int a service reservoir of about 30,000 gallons capacity to be constructed in brick masonry on the land to the West of Wesleyan Boys' School The distribution lines will be taken from this tank and provision has been made for about 10 taps for the present The feeder line will be sufficiently big to take the required extensions later on

The pumping unit proposed to be installed will also have the required capacity

The cost is to be borne by the Municipality The usual charges of 18% towards the Establishment and Tools and Plant charges are also included in the estimate

SIR

Subject —

With reference to your letter No L 7913 dated 3rd May 1934 re water supply to Closepet Town, I have the honour to foward herewith a copy of report No 343/33-34 dated 14/17th May 1934 furnishing information on all the points raised in your letter under reply and to state that the payment of contribution out of the Reserve fund by the Co-operative Society is no doubt against the provision of the co-operative societies Regulation but considering the importance and the need felt for the Water supply to the Town I request that sanction of Government may kindly be obtained to the proposal of the Society to contribute the sum of Rs 5000/- towards the project as a special case The Society is also ascertained to have sufficient funds at its credit to make the payment as promised

A sum of Rs 2500/- is expected to be realised by the proposed levy of water rate and other taxes and necessary action will be arranged to be taken for the levy of the same immediately after the scheme is got sanctioned by Government

The favour of early orders are requested in the matter

I have the honour to be,
Sir,
Your most obedient servant,

K V Anantaraman

Deputy Commissioner,
Bangalore District

V V 6/6

Report No.843/33-34 dated 14/17th May 1934 from the President, Closepet Municipal Council to the Deputy Commissioner, Bangalore District

I Of the Rs 5000/- promised by the Co-operative Society it has already got about Rs.1000/- accumulated profits, the gift of which towards the Water supply scheme would be unobjectionable from any point of view. As per the balance of Rs 4000/-the Society proposes to donate the amount from its reserve funds I understand that there is some legal objection to the grant of fund in this manner from the reserve of a Co-operative institution There is however provision in the Co-operative Regulation itself for Government giving exemption from the operation of any particular clause of the Regulation The purpose for which the Society proposes to donate a portion of its funds is a very generous and useful one The Government have been pleased to sanction the Water supply scheme of Channapatna Town on the basis of proposals which included a substantial grant out of the reserves of the two co-operative societies of that town On the analogy this scheme may also be sanctioned

There is an alternative proposal which was considered at the General meeting of the Society at which I was present and over which the Registrar of Co-operative Societies presided It was proposed that the Society should lend to the Municipality the required sum at a very low rate of interest and meet the annual instalment and interest charges out of the year's profits. The proposal was approved by the Society Such a proposal may be adopted in case there is any insurmountable legal objection to the grant of the amount in question out of the reserve of the Society

I would suggest however that the saving clause regarding exemption may be made to operate and the grant out of reserve permitted

I learn that the reserve funds of the Society are in the shape of fixed deposits in the Apex Bank

II The maintenance charges (roughly Rs 3000/- per annum) will be met as shown hereunder:-

i	Water rate at 8 annas on every rupee of Mohatarfa	Rs.2500/-
ii	Tax on Bicycles	100/-

iii Tax on dangerous and offensive trades' 50/-

iv Licensing fees on Hotels 50/-

The small balance of Rs 300/- will be met out of the General income of the Municipality

Action to levy these fresh items of Taxation will be taken immediately the water supply scheme is sanctioned

III The revenues of the Municipality will be sufficient to meet the annual maintenance charges The additional taxation which the council propose to levy will probably cover the major portion of the cost leaving the general revenues untouched We have made provision in the ensuing year's budget for the payment of the first instalments of the Electric deficit on the lines of the resolution of the Municipal Council submitted to the Deputy Commissioner praying for some time to pay the amount in instalments The general financial position of the Municipality is satisfactory, there are no arrears of contribution to be discharged and all our normal commitments are being met regularly I would further lay stress on the facts that the introduction of a water supply scheme to this town would improve the value of house property and this in turn would increase our receipts from Mohatarfa after the next revision

A glance at the budget for 1934-35 submitted separately will convince one of the fact that the Municipality will be well able in any event to meet the maintenance charges

Sir

Adverting to your letter No L 3/DI 285-33-4 dated 2nd July 1934 re the proposal of the Sri Rama Nidhi Co-operative Society Closepet to contribute a sum of Rs 5,000/- to the Closepet Municipality towards the water supply scheme of the Town and requesting my opinion in the matter I have the honour to state as follows -

The contribution of Rs 5,000/- by the Closepet Co-operative Society out of its Reserve Fund for the above purpose either in a lumpsum or in instalments is against the Co-operative Societies' Regulation and the Rules thereunder The members, however, may at their Annual General Meeting set apart 15 per cent of the profits if any after crediting 25 per cent of the net profits to the Reserve Fund as donation to the water supply scheme

The grant of a loan to the Municipality by the society out of the Reserve Fund is also objectionable as a society cannot lend to non-members. But if the Municipality raises a debenture loan under Government guarantee the society may invest a portion of the reserve fund in the debentures
